

HIGH VISIBILITY CLOTHING

CONTRAST t-shirt

MC2919QM

MATERIALS

Double jersey piquet 55% cotton and 45% polyester.

GRAMMAGE

175 g/m²

FEATURES

Work t-shirt designed to offer maximum protection and visibility to those working in hazardous environments. With a minimal and modern design that is perfect for most of the year, it ensures comfort and breathability thanks to the high percentage of cotton. Certified to Class 1 for high visibility, the garment guarantees a basic level of visibility in daylight and nighttime conditions, even in the presence of artificial lighting such as vehicle headlights. The chest welt pocket allows essential tools and items to always be within reach during work. The heat-sealed and segmented reflective bands optimally adapt to body movements, offering greater comfort and freedom of movement. More durable and long-lasting than traditional bands, they are strategically positioned on the shoulders and chest and, together with the high-visibility contrast fabric inserts, complete the modern design and contribute to increasing operator safety.
