XL Rack Guard

Plastic shelf collision protection

Universal size for shelf supports with a width of 70–90 mm. Absorbs even the hardest impacts thanks to special plastic (HDPE mixture). Patented design for optimum force absorption. Single colour yellow and 500 mm high. Two connector clips provide additional support. Assembly requires no tools.

- Reduces collision damage to shelving supports and industrial trucks
- Made from high-quality HDPE, recyclable
- Elastic, resilient and dimensionally stable
- For support widths of 70–90 mm
- Cold-resistant down to -40° C
- High-visibility traffic yellow colour
- For indoor and outdoor use
- Quick, easy, tool-free installation
- No floor mounting
- Tested in accordance with: EN 15512-2009; FEM 10.2.10

Dim. (HWD)	137 × 500 × 137 mm
Colour	 Yellow
Item no.	PI-XL-Rack-Guard

Maxi Guards

Impact-resistant polymer column guards

Patented plug-in system for individually adapting protective elements to a wide variety of column shapes: rectangular/square, round columns or H-steel beams. Absorbs even the hardest impacts thanks to special plastic (HDPE mixture). The elements are supplied in sets of 20, including 8 fixing rods. Different order quantities depending on the column profile (see matrix). Assembly does not require any tools. Module heights of 500 mm, 1,000 mm and 1,500 mm are possible.
